Raising the Bar

LeadingAge members take responsibility for raising the bar in our field, as not-for-profit senior living providers. Ours is a public promise to expand the world of possibilities for aging to the best of our ability – and an internal pledge to always strive to fulfill that commitment through innovation and excellence. LeadingAge offers programs and resources, including this report, based on the latest senior living field-related research and knowledge.

A Note from LeadingAge

LeadingAge is pleased to partner with Ziegler to bring you the 20th edition of the LeadingAge Ziegler 200 ("LZ 200").

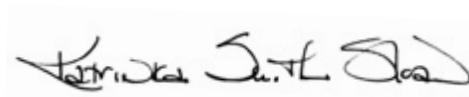

LeadingAge is pleased to partner with Ziegler to bring you the 20th edition of the LeadingAge Ziegler 200 ("LZ 200").

For 20 years, this publication has been an eagerly anticipated annual report of the largest, most complex nonprofit senior living organizations. It demonstrates the significant role that LeadingAge member organizations continue to play in the aging services sector. Each is rooted in their community, delivering on their mission to serve older adults and living their promise to deliver exceptional care and support.

LeadingAge members are innovators, bringing creativity to complex challenges. Their executive leaders and boards plan strategies to reposition, grow, change, partner, and venture into new lines of service and sustainability. The following pages present a snapshot of the ongoing story of our members' transformational leadership and good works.

The LeadingAge Ziegler 200 is not designed to be a qualitative report, nor an endorsement of any specific organization. Each organization ranking represents strong governance and powerful leadership dedicated to quality services and long-term success. Their stories and experiences can strengthen the entire field – and help increase public understanding of the critical services and supports our sector provides.

LeadingAge is committed to serving as the trusted voice for aging. Thank you for your interest and ongoing support of this report.

CAPITAL :: INVESTMENTS :: ADVICE

LeadingAge has been the ideal partner for this research initiative and we look forward to seeing providers, industry professionals and key stakeholders take full advantage of the wealth of information this publication provides.

A Note from Ziegler

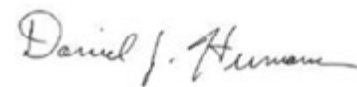

We are excited to release the 20th edition of the LeadingAge Ziegler publication, compiling data from the largest 200 not-for-profit senior living providers in the country. LeadingAge has been the ideal partner for this research initiative and we look forward to seeing providers, industry professionals and key stakeholders take full advantage of the wealth of information this publication provides. This year's report highlighting the 200 largest not-for-profit providers, represents more than 300,000 market-rate units and nearly 1,600 market-rate communities across the country. The report also highlights the largest single-site providers, the largest providers of Affordable Housing for seniors and the providers who are providing sizeable management services to other senior living & care communities.

Each year, we strive to stay on top of the latest trends impacting not-for-profit senior living & care providers. This year's publication continues to include the core sections with the number of units and communities, but also reveals insight into additional trends in home and-community-based services, third-party management, rental Life Plan Communities (LPCs), technology adoption, joint ventures and future growth plans, to name a few. As has been observed across the

past several years, today's not-for-profit senior living & care providers are primarily growing through unit expansion and affiliation or acquisition activity.

We would sincerely like to thank the teams at LeadingAge and Ziegler who make this publication possible. We would also like to give a special thanks to all the providers who take the time to share their information and who embrace this publication year after year. As always, if you have any questions or feedback regarding the publication, we encourage you to reach out to us.

Enjoy the 2023 LeadingAge Ziegler 200 publication!

Daniel J. Hermann
President & CEO
Head of Investment Banking
Ziegler

The LeadingAge Ziegler 200

History

The LeadingAge Ziegler 200 (“LZ 200”) began when two organizations recognized the need to examine and better understand the not-for-profit senior living sector: LeadingAge, the nation’s largest association of not-for-profit aging service providers in the country, and Ziegler, one of the nation’s leading underwriters of financing for not-for-profit senior living providers.¹

In response to the growing industry and the value of this report, in 2014, it grew from the LZ 100 to the LZ 150 and in 2018 to the LZ 200. The combined expertise of LeadingAge and Ziegler yields a reliable, useful and valuable source of information.

The 2023 LeadingAge Ziegler 200 lists the largest not-for-profit systems providing aging services through senior living in the United States, in order of total owned market-rate units, as of **December 31, 2022**.

By sharing this current data, our goal is to illustrate the size of the not-for-profit segment of the senior living sector, in order to better raise awareness of the characteristics and overall trends of growing systems. Through this data, we also hope to further the understanding and delivery of successful senior living.

¹2022 ranking data and amounts provided by Refinitiv as of 12/31/22.

Chapter 1

Understanding the LeadingAge Ziegler 200

Importance of Not-for-Profits

LeadingAge and Ziegler believe that not-for-profit providers offer some of the best care and services in the country because of their passion and commitment to the not-for-profit philosophy. This dedicated enthusiasm of not-for-profits has inspired boards of directors, attracted volunteers, and devoted staffs, and led to innovative models for the way we care for the elderly. A mission-driven philosophy of service with dignity and respect for the person is the inherent benefit the families, residents, and clients of not-for-profit senior living communities have found (whether independent living, assisted living, nursing care, memory support, or home and community-based services).

Many not-for-profit providers rose from modest beginnings more than a century ago into vital community resources today. In fact, listed in the LeadingAge Ziegler 200 rankings are nearly 50 organizations that were founded more than 100 years ago! These organizations continue to build legacies of caring, giving, and selflessness while expanding their

capabilities and honing their skills – striving to provide quality service for generations to come.

The LeadingAge Ziegler 200 (LZ 200)

The genesis of the LZ 200 research was to quench a thirst for answers related to the growth of not-for-profit systems. Ziegler had compiled extensive, but primarily anecdotal, information about not-for-profit senior living, gleaned through its experience in working with specific organizations. While useful, this information did not represent the not-for-profit senior living sector collectively. Ziegler had a host of questions it wished to answer for itself, its clients, and those interested in investing in the senior living sector, such as who are the largest senior living providers in the nation, how quickly are systems growing, and what trends are taking place with the type of growth.

By assembling and presenting the combined data and knowledge of LeadingAge and Ziegler, the LZ 200 publication answers many of these questions. From its inception, the creation of the LZ 200 was an innovative move for those involved with not-for-profit senior living. To our knowledge,

listing the largest not-for-profit senior living systems by the number of units they own and operate, representing the number of residents they serve, rather than by their financial success, created a new way of ordering systems, providing a fresh perspective on what was previously understood as a known market. The journey in creating and updating the LZ 200 annually has provided a wealth of data by which to understand and analyze the characteristics of senior living system providers' growth and change.

The organizations in the LZ 200 have made strategic decisions over the years, sometimes to expand to serve a broader community, while other times to dispose of communities and reposition a portfolio of properties and markets served. The LZ 200 is only the beginning of a profile of providers who are delivering services to the elderly community, both residential and home-based. Thousands of not-for-profit providers are playing an important role in the United States. We embrace each organization's contribution to the populations it serves. Regardless of an organizations size, not-for-profits are strong in numbers and bound by shared values.

Chapter 2

The Largest 200

A Quantitative Listing

LeadingAge and Ziegler are not the first to develop a listing of organizations or companies. Many common listings include qualitative factors, such as “best” or “worst” or “most successful.” Other listings are based on quantitative, objective measures alone. Following the footsteps of other well-known listings, the LZ 200 also uses a quantitative means of listing. The LZ 200 lists not-for-profit multi-site organizations based on the total number of senior living units (excluding government-subsidized [affordable] units) that each system owns and operates. The **Primary Ranking** is ranked by size – based on total units – carrying no qualitative value judgment in the ranking. Size does not connote quality, nor does it connote financial strength. Both LeadingAge and Ziegler want users of the data to see the LZ 200 as a statement of fact, not as an endorsement.

Methodology

Defining a Multi-site Organization

For the purposes of the LZ 200 listing and analyses, a multi-site organization, or system, has been defined as a **LeadingAge-member**

not-for-profit organization that owns and operates senior living on more than one campus. While it is understood that systems may also manage units they do not own, these managed, non-owned units are subject to frequent change and are therefore not included in the total unit count compiled in the LZ 200 Primary Ranking. However, we offer an examination of the extent to which the LZ 200 organizations manage units they do not own. (*Chapter 4: Organizational Characteristics*)

It is also understood that an organization may consider itself a system if they own, for example, a nursing home on one side of the street with independent living units on the other; or an organization may have multiple community types nearby and may market these communities independently of one another. While these types of organizations – with properties contiguous or in close proximity – were not considered systems in the first publication (2004), upon reconsideration we began to include them in subsequent publications (e.g., Willow Valley Communities [PA]).

It should be noted that systems composed primarily of government-subsidized (affordable) housing have been intentionally excluded from

the primary LZ 200 listing. Rankings for affordable housing providers are included in Chapter 6 of the report. In previous years, systems that were comprised primarily of acute or post-acute services or health care systems were also excluded. Beginning with the 2016 report, additional systems were included to reflect not-for-profit health systems that have a separate division, or ministry, with a distinct focus on operating as a senior living system. Two examples of such a system are Ascension Living and Trinity Health Senior Communities.

Compiling the Listing

The LeadingAge Directory of Members was a critical source in compiling the first ranking in the 2004 publication. Using the list of multi-community sponsors in the directory, Ziegler compiled a listing of providers and ordered the organizations on the list by each organization's number of total senior living units (excluding government-subsidized (affordable) housing units, which are, as mentioned earlier, ranked in a list of their own later in this publication).

For each organization, Ziegler attempted to trace its history of growth, starting with the date of inception. The pattern of growth for each system is created by recording the year in which change occurred—by expanding existing communities, building new communities, acquiring existing

communities, or disposing of communities or units. Web sites, official statements from bond offerings, ratings reports, and marketing materials were consulted to determine these changes in the first publication. The LeadingAge membership database is a resource for compilation of the listing, as are other public resources, but subsequent publications have verified data through written confirmations by staff members of the organizations themselves.

Data used for ranking the 2023 LZ 200 were provided and confirmed (“confirmation”) by 161 of the 200 organizations. Nine confirmations were received from the “Over 200,” the organizations ranked from 201 to 223.

Although the information used for the compilation of the LZ 200 was provided in the majority of cases by the organizations themselves, some organizations cannot trace their histories to the degree of accuracy preferred for the LZ 200 analyses. In such cases, historical information has been extrapolated and the current information validated. For those analyses where detail was unavailable, unit mix in prior years with uncertain histories was approximated based on the most recent current mix data. The LZ 200's listing can be tabulated by any one of the variables tracked for the systems. Again, in no way should readers construe the ranking in any of the categories as a measure of quality, value, or endorsement.

Key Findings

- **An understanding of size ...** The systems range from 21,959 units to 394 units.
- **Information on unit mix ...** The 10 largest providers of senior living represent nearly 30% of the total number of units for all systems in LZ 200.
- **An appreciation of the rate of growth ...** In the last 10 years, the average annual growth rate in total units is 2.2%, with independent living and assisted living growth each year, but decline in the number of nursing care beds. Memory care units are becoming an increasingly important component of the annual unit counts, with 69% of the LZ 200 offering specialized memory care units.
- **Insights into type of growth ...** The LZ 200 have grown primarily through expansion, with the number of units via new campus growth having slowed in the past several years. Most of the growth in recent years has been from within existing campuses in the form of unit expansions. At the same time, organizations continue to dispose of dated nursing homes or financially stressed communities. Recent years have also seen an uptick in the number of organizations growing through affiliation, acquisition or merger.
- **Home and community-based services ...** Growth is also taking place in the form of home-based services, such as home health, home care, adult-day care, continuing care at home (CCaH) programs or PACE (Program for All-Inclusive Care for the Elderly). Of the LZ 200, 45% offer some type of home and community-based services to non-residents. This year, the CCaH model, which had gained popularity in the past, is now offered by more than 10% of the LZ 200 (3% more than last year).
- **A glimpse of the geography ...** The systems provide market-rate senior living in 48 states. Pennsylvania hosts the highest number of system headquarters in the LZ 200. Minnesota has the largest total number of communities, with 212.

- **Technology ...** On average, 72% of the LZ 200 communities have adopted electronic point of care/point of service documentation systems and electronic health/medical records. Adoption is generally lower for health and wellness technologies, such as medication monitoring or telehealth remote monitoring; and care/case management and coordination reveals that 57% use this software. A category added in 2020, social connectedness/resident engagement, reveals that 60% use this technology; and 42% system providers utilize more advanced analytical tools. Due to the pandemic, two new categories were added in 2021, 55% implemented staff and resident screening, and 55% added infection control technologies. In 2022, we added two new categories regarding robotic technology, 30% have implemented robotic process automation while 70% have added physical robotics.
- **Joint ventures and partnerships ...** Nearly 36% of LZ 200 organizations are engaged in a formal joint venture, most commonly with another provider, a health system or a home health/home care agency. This is slightly more than the 35% reported in the 2022 report.

Chapter 3

Rankings

The LZ 200 Not-for-profit Multi-site Senior Living Organization Rankings

Data can be ‘cut and sliced’ across a variety of time periods: one year, five years, 10 years, or more. The growth of some LZ 200 organizations may be most dramatic across a five-year period; others may have more change across a 10-year period. Nearly every listing of this sort focuses first, however, on annual change. Therefore, the **Primary Ranking** (Chart 3-1a) of the LZ 200 is by total senior living units with the 2023 and 2022 rank shown. Charts 3-1b-d rank the organizations by market-rate independent living units, by assisted living units and, finally, by nursing care beds. When the 2023 Rank is referenced in subsequent charts, this refers to the **Primary Ranking** of multi-site organizations..

The 2023 Rank column displays the numerical ranking of each system according to its 12/31/22 data within the LZ 200 for each of the four listings: 1) Total Senior Living Units, i.e., the **Primary Ranking** (Chart 3-1a); 2) Total Independent Living Units (Chart 3-1b); 3) Total Assisted Living Units (Chart 3-1c); and 4) Total Nursing Care Beds (Chart 3-1d).

An organization’s ranking in each respective listing may change depending on the composition of its unit mix, that is, the mix of independent living units to assisted living units to nursing units within its system of communities.

The 2022 Rank shows the numerical ranking of the listed organization in last year’s publication (according to its 12/31/21 data) listing of the same type. The organizations that show “NR” (Not Ranked) were not included in the LZ 200 rankings for 2021. Also note that with the increase to the largest 200 in the 2021 publication, the “Over 200” connotes a different meaning than in previous years when the rankings ended at 100. The “Over 200” in the current publication represent organizations ranked 201 through 223 as of 12/31/2022.

System Name. The **Primary Ranking** uses the current system name as of the time of publication. See Chapter 4 for additional information on these specific organizations.

State. This field notes the location of the system’s corporate headquarters. For example, Covenant Living Communities & Services

provides senior living in multiple states. The state shown for this organization is Illinois (IL), the location of its headquarters.

Units (as of 12/31/22). The systems listed in the 2023 LZ 200 are ranked by totaling the units owned by the system in each of three primary types of senior living as of 12/31/22. Managed communities that are not owned are discussed later in the publication (Chapter 4) and are not included in the total community count compiled in the LZ 200 Primary Ranking. Government-subsidized (affordable housing) units are also excluded from this count but are presented for each of the LZ 200 organizations in subsequent listings (*Chapter 4*).

Total. The Total column is the sum of the units listed in each of the three different levels of care (described in more detail below). This total is the variable by which the LZ 200 is ranked for the **Primary Ranking**.

Independent living units (ILU) units may be composed of apartments, duplexes, triplexes, quadplexes, or single-family homes. Typically, residents in independent living units pay a combination of a monthly fee and one-time entrance fee. (Note: some residents own these units, but this type of

equity model represents a very small number of the independent living units within the LZ 200.) Those who pay a monthly fee will usually receive services such as housekeeping, maintenance, dining, security, and lawn maintenance.

Assisted living units (ALU) bridges the gap between independent living and nursing home care. Trained employees provide supportive care to residents who are unable to live independently and require assistance with activities of daily living (ADLs), including management of medications, bathing, dressing, toileting, ambulating, and eating. Personal Care or Residential Care Units (PCU/RCU) are included in the overall ALU total for LZ 200 organizations. These units share similarities with ALUs but are not licensed as such.

Nursing care beds (NCB) provide care for those who need rehabilitative care or can no longer live independently because of a chronic physical or mental condition that requires round-the-clock

nursing care. Meals, laundry, housekeeping, and medical services are provided. In most cases, these units are licensed for Medicaid and/or Medicare reimbursement.

Many of the not-for-profit organizations have combined independent living, nursing and/or assisted living on one campus. These campuses are typically called continuing care retirement communities, or Life Plan Communities (LPCs) (described in more detail below). Most of the organizations in the LZ 200 have Life Plan Communities within their portfolios; however, for purposes of unit rankings, the units within Life Plan Communities are counted by level of care.

Communities (as of 12/31/22). Over the years, various terms have been used to describe a senior living property: site, location, facility, campus, and community. A high rise on a limited acreage parcel does not fit the term "campus." A scattering of buildings, offering various levels of care, across extended acreage does not fit the

term “facility.” We believe the best all-encompassing word to use is “community.” The communities examined are life plan communities (LPC), independent living communities (IL), assisted living communities (AL), and nursing homes (NH). It is important to note that a single Life Plan Community may include ILU (independent living units), and/or ALU (assisted living units), and/or NCB (nursing care beds), but will contain at least independent living and nursing care . The Life Plan Community’s resident payment plans may include entrance fee, condo/co-op, and/or rental programs. Generally, the majority of the Life Plan Community’s units are not NCB. For communities listed as IL, AL or NH, these are communities whose primary unit mix is reflected by the name (e.g. IL community being predominantly Independent Living units.) In a

number of cases, these communities may also offer an additional level of care (e.g. Independent Living along with Assisted Living being listed as an “IL” community). In these instances, the predominant level of care determines the community label. The systems listed in the LZ 200 are ranked by totaling the communities owned by the system in these four key areas: LPCs, IL, AL, and NH.

The Over 200. The LZ 200 stops at the 200th largest not-for-profit system, leaving some senior living systems just beyond the list’s cut-off. The “Over 200” is a listing of the over 200 systems tracked by Ziegler and sorted alphabetically and determined by size.

² The definition of Life Plan Communities (LPC) used by Ziegler in its 2009 *Ziegler National CCRC Listing & Profile* includes the qualifying factor that, at a minimum, a community must offer both independent living and nursing services. This may not be consistent with how organizations classify their communities for this LZ 200 research.

Chapter 4

Analysis of the Data

The LeadingAge Ziegler 200 are examined through categories, including: total units, total communities, geographic coverage, location, ratings, accreditation, number of employees, affiliations, founding dates, provision of government-subsidized (affordable) housing, and the provision of home and community-based services. The prior year's publication also added items regarding technology adoption, the existence of a foundation within the organization, and a deeper dive into future growth plans for various models of home and community-based care.

Units

The first analysis of the 2023 LZ 200 provides a side-by-side comparison of the unit mix for 2022 compared to 2021 for each of the organizations. The 2023 LZ 200 organizations own more than 300,000 market-rate senior living units. By breaking the data into the largest 10, 25, 50, 100 and 150 (Chart 4-1c), it is evident that the ratio of units held by the largest 50 compared with the percentage of total units in the LZ 200 is not balanced, e.g., the largest 50

systems hold slightly more than 60% of the total units. The 10 largest systems own 30% of the total LZ 200 units. The average system within the 2023 LZ 200 reported nearly 1,534 units in 2022 (Chart 4-1b). Slightly more than 44% of the 2023 LZ 200's total communities are Life Plan Communities, with the nearly 56% evenly divided between stand-alone ILs, ALs, and NHs.

Summary of Not-for-Profit Units. These columns show the total number of units, followed by a breakdown of this total by level of care for each system. The first set of columns show the unit mix as of 12/31/22. The second set of columns show the unit mix as of 12/31/21.

Change in Total Units from 2021 to 2022. This column provides the change in the listed organization's TOTAL market-rate units (all levels of care) between year-end 2022 and year-end 2021.

Section 4-1b provides two examinations of three-year comparisons of the LZ 200 organizations. The first table details the total number of units by level of care among the largest 10, 25, 50, 100, 150 and 200 organizations. The

percentage of total units is detailed in 4-1b as well as 4-1c. This section also examines the unit mix between each of the five years' LZ 200 listings. Chart 4-1d provides a more graphic illustration of the type of change occurring in the LZ 200. For all the year-over-year comparisons made in 4.1b-4.1e, note the increase to 200 as part of the 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022 and 2023 publications. In some instances, two figures are calculated for the current publication, one that reflects the largest 100, 150 and allows for consistent year-over-year comparisons, and one that reflects the figures for the full 200 listing.

Communities

The unit analysis presented in Chart 4-1a is followed by a side-by-side comparison in Chart 4-2a of the community portfolios of the 2023 LZ 200 for 2022 compared to their portfolios at the end of 2021.

Summary of Not-for-Profit Communities. Community, as noted earlier, is the term used to refer to any type of community owned by the LZ 200, whether stand-alone nursing home (NH), assisted living community (AL), independent

living community (IL), or Life Plan Community (LPC). Again, government-subsidized (affordable) housing properties are excluded from the count of communities shown for the LZ 200 (these properties are examined in Chapter 4). The first set of columns in Chart 4-2a shows the communities owned, by type, as of 12/31/22. The second set of columns shows the communities owned, by type, as of 12/31/21.

Change in Total Communities from 2021 to 2022. This column provides the change in the listed organization's TOTAL communities (all types, excluding affordable housing) between year-end 2021 and year-end 2022. Chart 4-2b provides two examinations of three-year comparisons of the LZ 200 organizations. The first half of the chart examines the community holdings between each of the five years' LZ 200 listings. As with the year-over-year unit comparisons, in some instances, two figures are calculated for the current publication, one that reflects the largest 150 and allows for consistent year-over-year comparisons, and one that reflects the figures for the full 200 listing.

Organizational Characteristics: System Headquarters

Headquarters' Locations by Size

KEY:

Organizational Characteristics: Metropolitan Statistical Areas (MSAs) Number of Headquarters Located in the Largest 30 MSAs

Metropolitan Statistical Areas (MSAs)

Metropolitan Statistical Areas (MSAs) are defined by the Office of Management and Budget (OMB) for purposes of tabulating statistics on clearly defined metropolitan boundaries. These boundaries are based on 2022 data from the U.S. Census Bureau. Areas are identified by county, with several counties making up a MSA. The locations of the communities owned by LZ 200 organizations in the largest 30 MSAs are charted, showing the number and type of communities within each of the MSAs.

Organizational Characteristics: Geographic Classifications

Classifications

A multi-site's geographic market area, what the LZ 200 listing terms its primary classification, offers a descriptive glimpse of the location of the multi-site's senior living properties. A multi-site's primary classification describes the market area that includes ALL its properties, regardless of type (including government-subsidized senior living). For some, the market area may be established by implicit boundaries, due to regulatory constraints or even due to the system's own name. Some multi-sites may change their names to more accurately reflect new growth strategies.

The LZ 200 are classified by their primary markets according to eight categories. Definitions and examples of the eight market categories are listed below:

- **National.** Systems whose properties are located among multiple states in more than one region of the United States. Several of the national

systems focus their operations either west or east of the Mississippi River or Rocky Mountains. A few of the national systems have an abundance of properties broadly scattered across the country, for example:

Pacific Retirement Services, Inc. (LZ 200 #17) – a national system with a disparate geographic distribution of its communities with locations primarily on the West Coast, but two communities in Wisconsin and one in Texas. Covenant Living Communities & Services (LZ 200 #8) is a national system with communities in multiple states across the country.

- **Across States.** Systems whose communities are located among multiple states, primarily in one region of the United States. Example: Acts Retirement-Life Communities (LZ 200 #4) is classified as an across states system with a focus in the Northeast, Mid-Atlantic and Southeast U.S. Another example: Lifespace Communities (LZ 200 #6) is classified as an across states system where its focus had been on the Midwest, Northeast and Southeast until their affiliations in the Southwest.

Organizational Characteristics: Geographic Classifications (Continued)

- **Tri-state.** Systems whose communities are located across three states, typically contiguous. Example: BHI Senior Living's (LZ 200 #22) sole focus was Indiana until their recent affiliations expanding them into Michigan and Ohio.
- **Bi-state.** Systems whose communities are located across two states, typically contiguous. Example: Springpoint (LZ 200 #24) had all of its communities within New Jersey as of year-end 2016. In 2017, another organization affiliated with Springpoint, which now puts Springpoint communities in both New Jersey and Delaware, a Bi-state designation.
- **Single State.** Systems whose communities are contained within a single state's borders and are spread across the state. Example: Westminster Communities of Florida (LZ 200 #11) – multiple communities within Florida, spread across the state (from central Florida to north central Florida, east and west).
- **State Region.** Systems whose communities are contained within a single region within a single state's borders. Example: Methodist Retirement Communities (LZ 200 #51) – multiple communities centrally concentrated in Texas.
- **Metropolitan.** Systems whose communities are contained within a metropolitan area. Example: Episcopal SeniorLife Communities (LZ 200 #134) – multiple communities throughout the greater Rochester, New York area.
- **Sub-metropolitan.** Systems whose communities are contained within a sub-section of a metropolitan area. The larger the metropolitan area, the more likely the possibility that a multi-site may emerge within a sub-metropolitan area. Example: The communities of Goodwin Living (LZ 200 #85) are in the southwestern quadrant of the DC-Arlington metropolitan area.

Organizational Characteristics: Geographic Classifications

Primary Classifications

Chart 4-6a shows that a large majority, more than 50%, of the LZ 200 organizations operate within a single state's boundaries (Single State, State Region, Metropolitan or Sub-metropolitan). Generally, a multi-site moves gradually from single state, to bi-state, to tri-state, and then to a national multi-site. For example, Augustana Care Corporation operated in the Minneapolis area for most of its existence. In the 2000s, it added communities in other areas of Minnesota. In 2011, it expanded to Colorado; and in 2018 affiliated with Elim Care (MN) (who operates in Minnesota and North Dakota), to become Cassia (LZ 200 #13). National multi-sites are 8.0% of the LZ 200 and tend to be among the largest of the LZ 200 organizations; however, as noted earlier, a smaller percentage of these national multi-sites have communities that are broadly spread across the country.

Analysis of the Data: Classifications

Secondary Classifications

A multi-site may have a secondary market, as well. For example, bi-state multi-site Lutheran Senior Services (LZ 200 #15) has a secondary metropolitan market in St. Louis. The secondary classification provides a snapshot of a system's geographic concentration of communities. More than sixty-five (65) of the LZ 200 systems have such a market concentration. (Chart 4-6c)

Organizational Characteristics: Corporate Name Changes in 2022

Corporate Name Changes

An ongoing trend among senior living organizations throughout the country, is that of changing the name of the organization to better reflect the services provided. Section 4-7 lists the 2022 name changes.

2023 Rank	Current System Name	Logo	Previous System Name
72	Brio Living Services		UMRC and Porter Hills
83	Brightspire		The Presbyterian Homes, Inc.
85	Goodwin Living		Goodwin House Incorporated
117	Illuminus		Marquardt Village, Inc.
129	Futura Age		eliseo and Foss Home
148	ThriveMore		Baptist Retirement Homes of North Carolina, Inc.
160	FellowshipLIFE		Fellowship Senior Living

Organizational Characteristics: Debt Ratings

Rated Debt as of 12/31/2022

Ratings

There are currently three rating agencies that rate senior living debt: Fitch Ratings and Standard & Poor's, and Moody's, two of which, Standard & Poor's and Fitch Ratings, are currently active. A listing of multi-site organizations with debt rated by Fitch Ratings or Standard & Poor's is shown in Chart 4-8a. A multi-site with an "NR" shown as an agency's rating means that the multi-site did not have its debt rated by that agency as of 12/31/22. More than 60 of the LZ 200, including three of the Over 200, organizations have outstanding debt rated by Fitch Ratings and/or Standard & Poor's. Chart 4-8b presents the categories of each of the ratings, showing that the majority, 46%, of the ratings for LZ 200 organizations fall in the "BBB" category (that is, with ratings of "BBB+," "BBB" or "BBB-").

Analysis of the Data: Revenue

Annual Revenue by Organization

Revenues

Several years ago, the LZ 200 publication began capturing the type of revenue generated by each respective organization. As an additional means of evaluating the size of each organization, in addition to the total number of units and communities, overall revenue was also surveyed. Most of the organizations provided this information. To avoid detailing each organization's total revenue for fiscal year 2022, organizations were grouped into tiers based on their overall revenue. The largest LZ 200 organizations have revenues beyond \$200 million (20 organizations). The largest number of LZ 200 organizations fall within the Tier III category, which reflects annual revenue between \$50 million and \$99 million. Section 4-9 details the revenue statistics. It should be noted that revenue figures included in the report are taken directly from survey responses and are not independently verified.

	Number of LZ 200 Organizations	% of Total LZ 200
Tier I: > \$200 million	20	13.7%
Tier II: \$100-\$199 million	31	21.2%
Tier III: \$50-\$99 million	55	37.7%
Tier IV: \$25-\$49 million	36	24.7%
Tier V: < \$25 million	4	2.7%
n = 146

Organizational Characteristics: Accreditation

Accredited Communities

Accreditation

For senior living organizations, accreditation may be sought through several accrediting bodies (Charts 4-11a-b). The listing of LZ 200 with organizations that have obtained CARF (Commission on Accreditation of Rehabilitation Facilities), JCAHO (Joint Commission on the Accreditation of Healthcare Organizations), or EAGLE (Educational Assessment Guidelines Leading toward Excellence) accreditation is shown in Chart 4-11a-b. A total of 109 communities within the LZ 200 are accredited through CARF; 38 have sought accreditation through JCAHO, and an additional 35 are accredited through EAGLE.

Analysis of the Data: Staffing

Summary of Employees, 2010-2022

Staffing

The LZ 200 analyses include an examination of the number of full-time equivalents (FTEs) each organization employs. An average of 858 FTEs were employed per organization throughout 2022. Note that the number of FTEs have decreased since the 2018 publication with the expansion to the largest 200 organizations as the size of the organizations get smaller the further above the 150 ranking.

Analysis for 2023 LZ 200 by Year

Organizational Characteristics: Rental LPCs

Organizations That Have Fully Rental LPCs

Analysis of the Data: Affiliations

Affiliation by Total Number of Systems

Affiliation

More than seventy-five percent (75%) of the LZ 200 organizations have an affiliation with a religious organization, predominantly Lutheran, Presbyterian, and Catholic, or a fraternal or military group (Chart 4-14a). Lutheran organizations represent the largest number, with more than 50,000 units. Presbyterian affiliation follows with more than 41,500 units.

Organizational Characteristics: Affordable Housing

Comparison of Market-Rate Units Vs. Affordable Units of Housing Providers

Affordable Housing

The ranking of the LZ 200 organizations by the number of affordable (non-market-rate & market rate) units is included with this research to show that several the LZ 200 have a strong commitment to the provision of this type of senior living. This ranking may allow senior management and others the opportunity to compare their organizations with other organizations that are providing services to a full spectrum of income levels. Section 4-15 detail these listings further. The data reveal that among the LZ 200, thirty-two percent (32%) have affordable housing units.

n = 63

Organizational Characteristics: Affordable Housing

Percentage Providing Affordable Housing

n = 63

Systems by Total Market-Rate and Affordable Units

Chart 4-15c presents an aggregate ranking of unit types, market rate and market rate affordable housing. This type of ranking better reflects the size and scope of each organization that provides residential options for seniors of varying income levels. For example, National Church Residences is ranked as LZ 200 #34 (Primary Ranking) with 2,078 total market-rate units while the organization is ranked #1 with 22,985 total affordable housing units. By aggregating these two categories of seniors housing, the organization is the largest among the LZ 200 with 25,063 total units.

Organizational Characteristics: Managed Units & Communities

Comparison of Owned vs. Managed Communities and Units of Providers that Manage

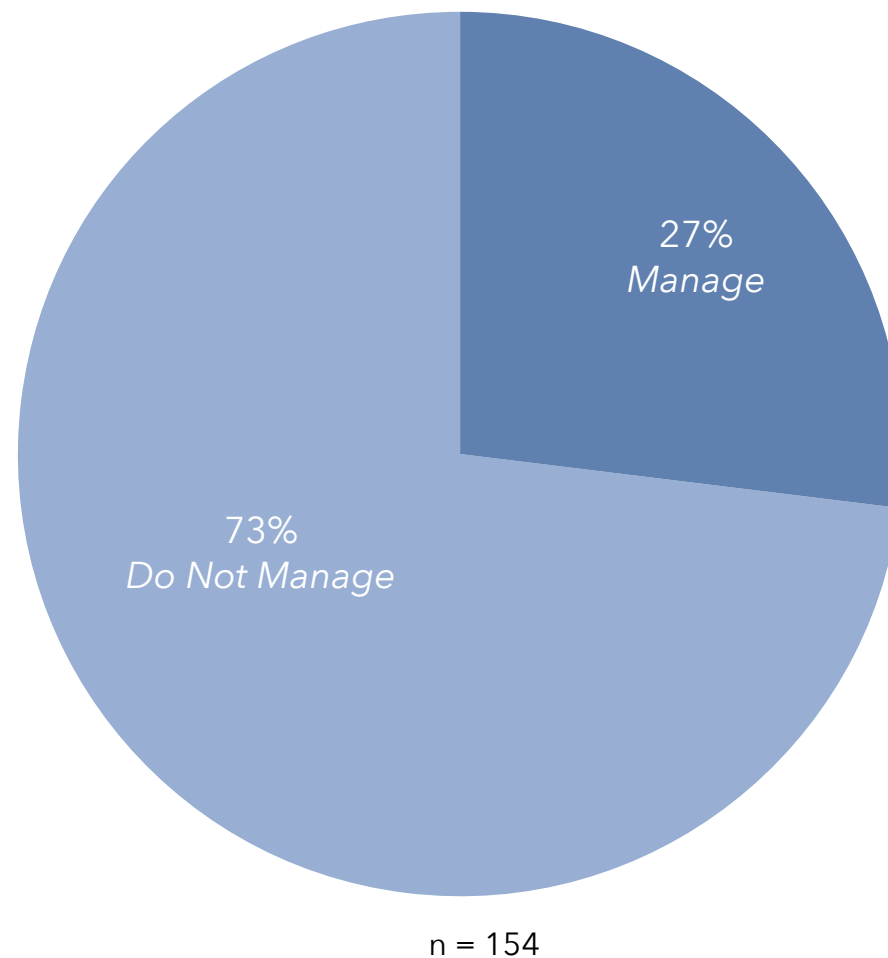

n = 41

Organizational Characteristics: Managed Units & Communities

Percentage that Manage

Managed Units and Communities

There are several companies in the senior living sector whose primary business purpose is to provide management services to properties they do not own. The LZ 200 organizations are, on the contrary, primarily property owners. Nearly 30% of the LZ 200 manage and own senior living units (Chart 4-16c), but the overwhelming portion of their portfolio of units is owned.

MGD - Managed unit counts include both managed market-rate and managed affordable units

Organizational Characteristics: Assisted and Skilled Composition

Percentage That Offer Private Versus Semi-Private Units

KEY: ■ Percentage Private (AL) ■ Percentage Private (SN)

Assisted and Skilled Composition

This report has tracked the proportion of assisted living and skilled nursing units that are private. There is a clear trend toward private assisted living units, with 88% being private. On the other hand, 72% of the skilled nursing units are private.

This year's publication is the ninth in which the percentage of LZ 200 organizations that own and operate memory support (MS) units is analyzed. Section 4-17 details the percentage of LZ 200, by the largest 10, 25, 50, 100, 150, and 200, that offer specialized memory support units. Roughly 64% of the organizations offer memory support, with more than 32% offering both assisted living and skilled nursing memory care services. An additional 56% offer only assisted living memory support.

Organizational Characteristics: Assisted and Skilled Composition

Percentage That Offer Memory Support

Organizational Characteristics: Home & Community-Based Services

Percentage Offering HCBS to Non-Residents

Home and Community-Based Services (HCBS)

This year's survey gathered overall feedback on the percentage of providers offering home and community-based services, and specifically drilled down into Continuing Care at Home (CCaH), Program of All-Inclusive Care for the Elderly (PACE), and hospice services for individuals in the greater community. Overall, 42% of the LZ 200 organizations offer home and community-based services to non-residents. CCaH, a model that grew in popularity several years ago, is offered by nearly 10% of the LZ 200. Approximately eight percent (8%) have PACE programs, and hospice services are being provided by 19%.

Technology

Beginning with the 2013 LZ 100, information was gathered regarding the adoption of various aging-related technologies. The technology findings are integrated into section 4-19. The majority of LZ 200 organizations, 62% respectively, reported adopting Access Control/Wander Management Systems. Additional detailed findings are reported throughout that section. Data was once again gathered this year for single-site organizations. Chapter 6 reveals the proportion of those organizations who have adopted various technologies.

Chapter 5

Growth and Change

This section is focused on the ways the LZ 200 have grown and changed throughout their histories. The prior three year's Largest 10 providers included three new multi-sites: Benedictine, Ascension Living, and Trinity Senior Living Communities. Due to incomplete data for these organizations, the historical pace of growth charts were excluded from this year's publication.

Pace of Growth: The Largest 25 Systems

Pace of Growth charts (Charts 5-2a-t) trace the growth patterns of 20 of the 25 largest multi-sites in the LZ 200. Each significant point of growth in a multi-site's history is marked and explained on the chart. Five of the largest 25 organizations of the LZ 200 were excluded because of insufficient historical detail: The Evangelical Lutheran Good Samaritan Society (LZ 200 #2), Ascension Living (LZ 200 #5), Trinity Health Senior Communities (LZ 200 #9), Benedictine Health (LZ 200 #10), and The Carmelite System (LZ 200 #23). The Pace of Growth charts show the different methods of change the systems are employing. Significant new

community construction and expansions are noted, with the addition of the second community highlighted in a dashed box. Mergers and acquisitions (gray-framed box) and dispositions (bold black box) are also highlighted.

We encourage readers to study each of the Pace of Growth charts, comparing not only the differing pace by which these organizations have grown and changed, but the methods by which these changes have occurred.

Growth: Aggregate Growth

Aggregate Growth

Section 5-3 of the report details the pace of growth among the LZ 200 organizations in terms of average annual growth and aggregate growth. These tables list the organizations within the LZ 200 that have increased in size the fastest between 2021 and 2022, 2000 and 2022, and 1990 and 2022 (Charts 5-3a-c).

Average annual growth is calculated through a geometric mean calculation that captures the time factor in growth. For example, an organization may have taken 50 years to double in size, but then it may have doubled again in a five-year period. These changes in growth rates are not uncommon and may be the result of a combination of a new management team with a new focus or an existing team's shift in focus and a decision to accelerate.

Growth: Aggregate Growth Organizations by Aggregate Growth, by Period

2023 Rank	System Name	State	Growth*		Units Added	Total Units (as of 12/31/22)
			Aggregate Growth (%)	Average Annual Growth (%)		
Growth in 2022 (n=200)

Growth: Future Growth Plans

Percentage Planning to Expand or Reposition in Next Two Years

Future Growth Plans

Arguably, much information can be gathered about potential future growth, whether it would be in the form of bricks-and-mortar or expanding home and community-based services.

For purposes of the LZ 200, feedback is gathered on the intent to grow through affiliation, new campus development, or expansion in the next two years. Roughly 71% of the LZ 200 reported intentions to expand or reposition an existing campus in 2023 or 2024. Roughly 16% reported that they intend to grow via the construction of new communities while 33% responded 'maybe' to this type of growth in 2023 or 2024. Another 12% reported that they intend to grow from affiliation while 25% may consider affiliation in 2023 or 2024.

Growth: Type of Growth by Organizations

Type of Growth: Expansion, New Communities, Merger/Acquisition/Affiliation, Disposition

Charts 5-6a-c and 5-7a-l describe how the largest 10, the largest 25, the largest 50 multi-sites, and all 200 multi-site organizations have grown through expanding existing campuses, construction of new communities or merger/acquisition/affiliation and/or disposition. Properties have been classified according to the following definitions:

Expansion: The addition of new units to an existing community. Note: if a new community is added to an existing campus, this is also considered an expansion.

New Community: Growth by the addition of units through construction at a new location.

Merger/Acquisition/Affiliation: Growth of a multi-site organization by the addition of units through merger, acquisition or affiliation.

Disposition: The sale or closure of a community.

Type of Growth: Expansion, New Communities, Merger/Acquisition/Affiliation, Disposition

The charts at 5-6a-c analyze how communities have changed through the above-described venues over a 10, 20, and greater than 30-year period (1980-2022). More than 1,450 communities have been added from campus expansion since 1980 (Chart 5-6a). Dispositions have also increased dramatically. Of the 312 community dispositions that occurred from 1980-2022 among the LZ 200 (Chart 5-6a), roughly 295 of these dispositions occurred in approximately the last decade (Chart 5-6c). The most common dispositions in recent years have been free-standing nursing homes or assisted living and financially distressed Life Plan Communities.

Charts 5-7a-l are used to present incremental growth by five-year period and cumulative growth by five-year period for each of the LZ 200 groupings (the largest 10, the largest 25, the largest 50, the largest 100, the largest 150, and the largest 200). The second of each pair of charts shows the incremental change of the multi-sites, that is, how many existing properties have experienced expansion; how many properties have been added

Growth: Type of Growth by Organizations

through new community construction or through merger, acquisition and/or affiliation; and how many properties have been lost through disposition each year. For the incremental growth charts, the final five-year period is provided with the current year shown alone. The cumulative growth charts provide the number of properties added or lost through each of these methods through the period shown.

Growth: Type of Growth by Organizations

Chapter 6

Additional Listings

Additional listings were added to LZ 200 with its inaugural publication: single-campus senior living and largest individual campuses. These lists are composed of LeadingAge members that fit within these specific categories. Like the rest of the LZ 200, these are quantitative, not qualitative, listings. It should be noted that with the 2023 LZ 200, the single-campus senior living listings are increasing from the largest 150 to the largest 200.

Single-Campus Senior Living Communities

A single-campus senior living community offers care at one location, or campus (Chart 6-1a). The single-campus communities are ranked by number of units. The single-campus organizations listed in Chapter 6.1a-i are not part of a system but are single-site organizations. These organizations may offer additional services, such as home-based care in the greater community, but oversee only one facility-based operation. A clear majority of these organizations are Life Plan Communities.

Chart 6-1b shows a small percentage (6%) of single-site campuses offer affordable housing. Chart 6-1c-d shows that 44% of these organizations

offer some type of home-based care, either to residents or to individuals in the greater community.

Figure 6-1e-f reveals that most of these organizations have adopted Electronic Medical/Health Records (EMR/EHR) and Electronic Point of Care/Point of Service (POC/POS) Documentation Systems, and slightly more than 20% have adopted robotic applications within their communities.

Two new charts added in the 2023 LZ 200 are 6-1g-h, which show future growth of single-site communities wherein 64% plan to expand or reposition in 2023 or 2024, while 11% plan to grow their community either through affiliation or new development (a 2nd campus or satellite campus).

Largest Individual Campuses

Added back into the publication in 2019 is a listing of the largest 200 not-for-profit campuses in the country, regardless of whether they are a single-campus community or part of a multi-site organization within the LZ 200 (Chart 6-1i). The largest campus, Riderwood Village (MD), has a total of 2,153 market-rate units.

Closing Thoughts

In closing, the largest not-for-profit senior living organizations continue to grow and evolve with the changing landscape. This year, we had a number of single-site providers grow into multi-site organizations and join the LZ 200 primary rankings. We continue to see that for today's not-for-profits, growth is primarily being driven through community expansions and affiliations. Providers remain committed to home and community-based service platforms and the largest providers of those services continue to grow their annual revenue obtained from these services. Technology adoption will continue to be tracked as providers maintain existing platforms and explore investments into emerging solutions. It is our hope that this publication fully captures the behaviors and patterns of today's not-for-profit senior living providers and serves to enhance awareness among providers, business firms, associations, and other related partners.
